

Please do not do away with, or weaken the Telephone Consumer Protection Act. I am currently on New Jersey's NO Call list and am very thankful that I do not have telemarketers interrupting my dinner time and children's bedtimes. My friends and family know not to call me around my children's bedtimes, but telemarketers seem to always call then. I would just get my newborn to sleep, when the ringing of the phone would wake her up. Now, both my children and I are better rested.

Thank you.
